

TDG provides dedicated, reliable & structured food packing support for a range of temperature controlled goods.

TDG King's Lynn: A specialist food co-packing facility

TDG provides dedicated co-packing facilities at a number of its shared user temperature controlled warehousing sites, including a first class service at TDG King's Lynn.

As with all co-packing solutions, the focus is delivering superior service. TDG can do this because of the strong procedures it has in place at King's Lynn, together with robust systems and dedicated people.

TDG has a wealth of experience in sorting, grading and packing of frozen cooked meat products, rice, vegetables and much more for onward supply to retailers and wholesalers.

Short product runs can be so costly to larger facilities, but due to the flexible nature of the facility at King's Lynn these can be handled at very short notice and also at very competitive prices.

Co-packing clients come back to TDG again and again – which ultimately speaks for itself in such a highly competitive area.

TDG King's Lynn is a reactive business that will be only too pleased to receive last minute enquiries
